### COVERNMENT NOT ALARMED

U. S. Navy Department Advised of Revolution and Sends Several Warships.

Panama, Colombia, Nov. 3.-The independence of the isthmus was proclaimed today. A large and enthusiastic crowd of all political parties assembled and marched to the neadquarters of the government troops where Gen. Tovar and Gen. Amaya, who arrived this morning were imprisoned in the name of the republic of Panama, The enthusiasm was immense and at least 3,000 of the men in the gathering were

GOVERNMENT NOT ALARMED. Colon, Nov. 3 .- There is a persistent rumor here that during the last few days a movement has been on foot look-ing to the independence of the isthmus. Noon of yesterday was the time men-tioned for its active inauguration, but tioned for its active inauguration, but no event publicly antagonistic to the government of Colombia took place. The rumor is prevalent today that de-velopments are avantations. The rumor is prevalent today that the velopments are expected tonight. The government, however, is not alarmed, and apparently no steps have been taken to queli any anticipated disturbance. This seeming inactivity on the part of the government is looked upon as showing confidence in the reports made by Gen. Obaldia, the governor of the department of Panama, who has issued a manifesto thanking all political parties for the adhesion promised to the government when it was reported that a heavy force was marching in the

vicinity of Penomeme.

In this manifesto the governor also thanked the inhabitants of the department of Panama for the sincere proofs of their patriotism and expressed the hope that they will again take the same line of conduct and thus save the gov-ernment the painful duty of taking

The United States gunboat Nash-ville arrived here late last evening.

The streets of Colon today present somewhat the same apeparances as during the days of the revolution. Several hundred troops who arrived today from Savanilia on the Colombian gunboat Cartageng, with their wives, are boat Cartagena, with their wives, are squatted on the street corners. The battalion consists of 450 soldiers, all well supplied with ammunition, under the command of Gen. Tovar, who left for Panama today, but the troops still

NAVY DEPARTMENT ACTIVE.

Washington, Nov. 3.—The navy department received word today of the arrival of the Nashville at Colon last night through a cablegram from her captain. Capt. Hubbard. The department found it necessary to conceal its purpose of dispatching the Nashville from Kingston to the isthmus and it was supposed that she was prevented from going to San Domingo because from going to San Domingo because some of her machinery was out of or-der. As a matter of fact the advices received from the United States vice consul at Panama more than a week ago determined the state department to have some representative of the navy in lsthmian waters. Indeed, it is prob-able that, beginning with the termina-tion of ceremonies at Guantanamo, in connection with the turning over the connection with the turning over the new coaling station, Admiral Coghlan will be required steadily to maintain an available force on the Atlantic side of the isthmus.

There are more reasons than the Panama situation for this, as the reports coming to the state department from the Central American countries north of Colombia reveal the existence

Only this morning a cablegram came from one of the United States consuls in Honduras stating that the people there were in a state of excitement over there were in a state of excitement over the reported intention of Nicaragua to attack Honduras. The duatemalans also are in a state of unrest which is unusual and the officials here would not be surprised to see something like a general war result from present con-ditions. It is positively stated that these movements on the part of our navy are in no way connected with a canal project and that there will be no attempt to negotiate further with Colombia on that subject until that government advances a reasonable propo-

Washington, Nov. 3.—The following cablegram was received at the navy department tonight:

partment tonight:

"An uprising took place at Panama tonight. Independence was proclaimed. The Colombian army and navai officials were made prisoners. A government was to be organized consisting of three consuls and a cabinet. It is rumored at Panama that a similar uprising was to take place at Colon.' Later a cablegram was received reading as follows:

"A number of confused and conflicting dispatches have been received from
the isthmus indicating rather serious
disturbances at both Panama and Colon. The navy department has dispatched several vessels to these ports
with directions to do everything posslble to keep order along the line of
railroad."

The sensational advices from the isthmus were not entirely unexpected, in view of the other reports recently received. The news causd a sudden outburst of activity in the navy department and at once on President Roosevelt's return he was made acquainted with the situation. with the situation.

Secy. Hay, Asst. Secy. Darling and a number of others were summoned to the White House and measures were at once taken for the protection of the American interests on the isthmus.

Belknap, the cipher officer of the bureau of navigation, came over from the navy depart. tion, came over from the navy department to the White House, bringing a message. The Wyoming, Marbienead and Concord, which compose Rear Admiral Glass' Pacific squadron, are under orders to remain temporarily at Acapulco, where they are now, to await orders to proceed to the isthmus, if the situation becomes worse. The Baltimore is now on her way to San Domingo because of an outbreak and disturbed conditions there, but upon her arrival at San Domingo probably will be ordered to proceed to the isthmus. In fact, the early advices received by the navy department mere-ly stated that the Nashville had arrived is stated that the Nashville had arrived at Colon and that the situation is serious. In addition to the orders given above, orders were issued tonight to the Atlanta to proceed from Jamaica to Colon. When the White House conference broke up at 11 o'clock not much beyond the official telegrams received and ordrs given would be stated by those participating in it. There is a very general belief that the rejection of the Panama canal treaty by Colombia caused the people of the isthmus to decide to set up a governet of their own, but none of the officials of the administration would authorize any statement to the effect that this was the case.

Acting Seey, of the Navy Darling made a statement regarding the location of the United States ships likely to be called on for isthmian service. He

The movement of these vessels, added Mr. Darling, will be directed by the navy department pursuant to requests from the state department.

Rhodes Trustees Sued.

London, Nov. 3.—Princess Radziwill today issued a writ demanding \$7,000,000 from Lord Rosebery, Earl Grey and Messrs. Alfred Beit, Dr. Jameson, L. L. Michell and B. A. This is a sequel to the arrest and imprisonment of the princess at Capetown in 1902 on the charge of the forging of Rhodes' signature to bills for several thousand pounds. The case, which doubtless will prove sensational, is expected to lead to many exposures.

# FULL PARTICULARS OF INDIAN TROUBLE

County Attorney Mecum of Douglas Returns from Beaver Dams With Detailed Account.

### WARREN SAYS, LOOKS SQUALLY

Indians Engaged Were Sioux from Pine Ridge and Were Traveling on Permit.

Douglas, Wyo., Nov. 3 .- County At torney Mecum has returned here from the Beaver dams on Lightning creek with full particulars of the recent trouble with the Indians. The fight oc curred about half an hour before sunset on Saturday evening. Sheriff Miller of Newcastle, ex-Sheriff Owens and a posse of eight men had followed the Sioux, who were from the Pine Ridge agency, to the Beaver dams with war rants for their arrest for unlawfully killing game. The Indians refused to surrender, and the posse allowed them to pass and, securing four additional deputies, headed the Indians in a val ley at the Beaver dams and demanded their surrender. The Indians, headed by one Charley Smith, otherwise known as Eagle Feather, without replying, shot and instantly killed Deputy Falkenburg. The shooting then became general on both sides. Sheriff Miller was shot in the hip, dying from the wound.

Five Indians, including the notorious Eagle Feather, were killed, and five badly wounded, of whom three are not expected to live. The Indians then scattered and struck out for the Dakota line. There were 22 bucks and 36 squaws and children in the party.

Sheriff McDermott of Weston county, Deputy Cook and a posse of 20 cowboys from Douglas and Lusk all heavily armed, are in hot pursuit of the Indians and may possibly overtake them before they reach the state line. The dead Indians were buried while the bodies of Sheriff Miller and Deputy Falkenburgh were taken to Newcastle.

SENATOR WARREN'S ACCOUNT. Washington, Nov. 3.—The commissioner of Indian affairs has received telegrams from Senator Warren of Wyoming and Agent Brennan of the Pine Ridge agency giving further de-tails concerning the recent fatal en-counter between Wyoming officers and

of Weston county, in which the light took place, to investigate.

Senator Warren said in his telegram that six indians were killed, six wounded and about the same number captured. He confirms the report of the death of the sheriff. One of the party, named South who is still at large is named South, who is still at large, he says, a student. There were to fights, one on Friday or Saturday and the other on Sunday. The undersherif is still in pursuit of the Indians and the latter have been reinforced.

"It looks squally," says the senator in his message, "and I fear further trouble." He suggests a close watch on the Indians at the agency for fear of still more serious consequences. INDIANS SEPARATED.

Denver, Nov. 3.—A dispatch from Douglas, Wyo., says: John Morton, a member of the Douglas posse, says that the Indians have separated and that each party is taking a different trail. The posse was unable to follow the lead and the aurent was towards. and the pursuit was temporarily aban

Doctors Didn't Know What To Do.

Dr. Miles' Heart Cure and Nervine Cured Me.

"For seven years I have been troubled with what the doctors called a 'fast heart,' going at once from the usual beat to twice as fast, which in a short time would exhaust me going at once from the usual beat to twice as fast, which in a short time would exhaust meterribly and only after treatment by a physician it would get back to normal speed. These attacks increased in frequency and severity until December, 1901, when they came on once a week. Each attack would lay me up a day or more. The attack beginning January 13th, 1902, lasted 160 hours (almost a week) my heart beat almost one hundred and fifty per minute and some times more. During this week my physician consulted with four other doctors, but all to no purpose. My heart finally slowed up, and it was then a serious question with my family what to do next, as for me, I was too far gone to care much what happened. Dr. Miles' almanac said, "write for advice" and my son wrote, receiving a nice reply. A neighbor told is he had used your remedies with great benefit. Itook courage, began the use of Dr. Miles' New Heart Cure and Restorative Nervine anti I had taken eleven bottles of the Heart Cure and seven bottles of the Restorative vervine. I had two slight attacks after I began the use of your medicine the last one asting only thirty minutes. For more than three months my heart has run without a lurry. I am cured, and Dr. Miles' Remedies did the work. I have been postmaster here for more than ten years."—M. T. CANTRELL, P. M., Fredonia, Kansas.

### Dead Man Came to Life.

New York, Nov. 4 .- While a wake was in progress during the night in a West Fifty-fifth street boarding West Fifty-fifth street boarding house over the supposed remains of John Siebert, who was believed to have been drowned, the mourners were thrown into a panic by the sudden entrance of what they took for the ghost of their friend. Some of the women fainted and there was the wildest excitement until the supposed apparition convinced the mourners that he was Siebert in the flesh. A call was then sent to the morgue for the removal of the body and the wake became a revel. The corpse had a striking resemblance to Siebert.

The party according to his statement, was small and was traveling through Wyoming on a permit. He also says that Sheriff Wilson and one of his posse were reported killed and that some of the Indians were also killed. Mr. Brennan also attributed the fight to a charge made by the officers for the purpose of arresting the Indians. He said that he would go to Newcastle, the county seat of Weston county, in which the fight took place, to investigate.

EAST VS WEST.

Salt Lake School Teacher Makes Some Interesting Statements.

Miss Etta Powers, a Salt Lake public school teacher, is visiting in Cambridge, Mass., and has this to say in the Boston Traveler:

"I wonder at the men remaining here in subordinate positions, when there are such openings in the west. They have ability to do much more than they have opportunity to do. You remember Mary Hallock Foote says 'that the time was

Hallock Foote says 'that the time was when a man thought he had to go east for his education and his wife and west for his fortune, but that now he can go west and get all three.'

"I never saw so many unmaried women in my life as I have here, and they are anything but the typical 'oid maid' at that. When you meet them you get all ready to say 'Mrs.,' and can't help being surprised when it is 'Miss' instead. I think these eastern girls would make ideal wives for western men; they have just the qualities—prudence, firmness and thrift—that would correct the lavishness and improvidence that prevail in the the west. The problem is, How are you going to get the girls out there?

"Did you read of the banker in Seattle who recently wrote to the mayor of New York, telling him that 'there were altogether too many men out there for the number of women, asking him if something could not be done to remedy that, as he understood that there were women to spare in the east?"

"Of course it would not be all fair to compare eastern and western col-

lege, but educationally the public school systems of the west are in many respects in advance of those in the east. Time has given to the east a rich heritage in history and literature. In the west history naturally lacks a certain ancestral meaning which gives it the personality felt in New England, yet nowhere is the spirit of native freedom stronger than in the west. To a degree incommensurate with its age the people are bringing up the standard of education and general culture. Out there there is a breadth and newness of country, which gives latitude of action and reflects in the character of the people. I was born and educated in lowa, went to Salt Lake City to visit one summer, liked it and have been there ever since.

"In writing a theme the other day I made some comparisons between the east and the west. I naturally tried to favor the east, feeling as I do that I as a guest here, and knowing as I did that it was to be read and criticised by an easterner. The professor said laughingly: "That is very skillfully done, but I can read between the lines and I know where your heart is."

"Out at Concord the other day we asked three or four different persons where the Emerson home was. They didn't know. Surely they must have been strangers. I thought that was worse than the man they tell of in Salt Lake City, who had never seen the lake.
